Overview and Privacy

* indicates a required field

Before You Begin

About The Program

Thank you for your interest in the Department of the Environment, Tourism Science and Innovation's (the department) Growing the Recovery of Organic Waste via Food Organic Garden Organic (GROW FOGO) Program.

This program is open to all Queensland councils to:

- implement new or expanded, source-separated kerbside organic waste collection services to contribute to meeting local, state and national organic waste recovery and diversion targets;
- implement fit-for-purpose at-home solutions to achieve additional household organics diversion where organics kerbside collection services may not be viable
- implement bin harmonisation to support statewide and national consistency in waste collection services

Please ensure that all information is provided on the application form, including the attachments where requested.

Please read the **GROW FOGO Program Guidelines (v.5) <<LINK TO BE INSERTED>>**, which provides detail of funding eligibility and other program information, prior to progressing with your application.

To better understand your project and whether it aligns with the objectives of the program, the department is looking for key information including applicant and project details, governance and funding.

Please ensure that you are completing the correct application form for your council. This form should be completed by R7 councils, or regional councils (other than R7).

I have read the program guidelines and am applying on behalf of an eligible council. *

Yes

While Completing Your Application

You are strongly encouraged to save your application form every five to 10 minutes to reduce the risk of loss of information.

You will need to upload attachments to support your application. Files can be up to 25MB each; however files up to a maximum of 5MB are recommended - the larger the file, the longer it takes to attach.

Help is available to guide you through using this form - please download the [Help Guide for Applicants](#).

Program Queries

GROW FOGO Regional - Application Form

Form Preview

For queries about the guidelines, timeframes, or questions in the form, please contact the Office of Waste Reduction and Recycling Programs team by email OWRRPrograms@detsi.qld.gov.au.

SmartyGrants Queries

If a technical error occurs, staff at SmartyGrants are available to help you. Contact them on (03) 9320 6888 during business hours or email service@smartygrants.com.au and quote your application number.

Submitting Your Application

You need to review your application before you submit it, via the 'Review' button at the bottom of the navigation panel.

Once you have submitted your application, no further editing or uploading of supporting documents is possible. You will be required to contact the department if you wish to re-open a submitted application form.

When you submit your application form, you will receive an automated confirmation email with a copy of your submitted application attached. This will be sent to the email address that you used to register with SmartyGrants.

If you do not receive a 'confirmation of submission' email, to either your inbox or spam folder, then your application has not been received.

I have read and understand the above information *

Yes

Privacy Statement

The Department of the Environment, Science, Tourism and Innovation is collecting personal information in the application form to assess your application for funding and prepare a grant deed should your application be successful.

All personal information you provide in this application form, including all attachments, will be routinely provided to the following parties for assessing the application:

- Other Queensland Government agencies to assess your application; and
- External assessment panel members.

Where necessary, information contained in your application may also be provided to the Queensland Minister for the Environment, Tourism Science and Innovation and the Ministers members of staff for reporting purposes (except for information which relates to the Departments confidentiality obligations).

If the application is successful, the following information will be routinely published on the Department of the Environment, Science, Tourism and Innovation's media platforms:

- Organisation's name;
- Total amount of funding allocated;
- Project location and description; and
- Project outcomes (tonnage).

The department will only use personal information for this purpose. It will otherwise not be used or disclosed unless authorised or required by law or with consent. Personal information will be handled in accordance with the [Information Privacy Act 2009](#).

GROW FOGO Regional - Application Form

Form Preview

The grant application and associated documentation is subject to the [Right to Information Act 2009](#). If you wish to access your personal information that is under the control of the department, you may contact [Right to Information Services](#).

If you have any questions or concerns regarding the privacy of your personal information, please contact the [department's privacy team](#).

I have read and accept the Privacy Statement. *

Current Organic Waste Services (if applicable) and Other Waste Services

* indicates a required field

Household Details

Please enter the following information in relation to the total number of households in your LGA, irrespective of the services they may receive.

What is the total number of households in your LGA? *

Must be a number.
Include all households (SUDs and MUDs).

How many of the above households are in Single Unit Dwellings (SUDs)?

Must be a number.

How many of the above households are in Multi-Unit Dwellings (MUDs)?

Must be a number.

Insert comments on the household numbers provided above (optional)

Existing organic waste services

Do you currently provide any organics waste services (garden organics or food organics)? *

- No
- Yes - Food and Garden Organics (FOGO) Kerbside Collection
- Yes - Garden Organics (GO) Kerbside Collection
- Yes - Garden Organics (GO) Self-Haul
- Other:

Select all that applies

Existing organic waste services details

Number of households with an existing kerbside Garden Organics (GO) waste kerbside collection service

Must be a number.

Funding Stream

* indicates a required field

Funding Stream Selection

Please select the funding stream you would like to apply for: *

- Stream 1: Organic Waste Bins
- Stream 2: At-home Organics Diversion Equipment
- Stream 3: Bin Harmonisation
- Stream 4: Education and Awareness Activities

Please select one or more streams which you would like to apply for.

Stream 1

Stream 1 provides \$75 per household that will receive a new, source-separated, organic waste kerbside collection service. Stream 1 funding is for the supply and delivery of kerbside organics bins.

Number of households that will receive the new organic bins and service *

Must be a number.

Proposed collection frequency of the new service *

- Weekly
- Fortnightly
- Other:

Note: Only Single Unit Dwellings (SUDs) are eligible for this program.

Which Garden Organics (GO) items will be accepted in the collection service? *

- Grass clippings
- Small garden prunings from shrubs/trees

GROW FOGO Regional - Application Form

Form Preview

Percentage of households in your LGA that will receive the new organic kerbside collection service

This number/amount is calculated.

Funding requested

This number/amount is calculated.

Briefly summarise how the number of households for kerbside organic bins was calculated *

Word count:

Must be no more than 150 words.

Please attach supporting evidence for the calculations *

Attach a file:

e.g. Data and/or calculations of how the number was chosen, quote from supplier.

Proposed bin manufacturer *

Do the new bins meet the requirements under AS4123.7/2024 standards? *

Yes

Recycled content of organics bins (%) *

Please note where possible bins, caddies and bin lids should be manufactured using a proportion of recycled content.

- Palm fronds
- Twigs, small branches & leaves
- Flowers & foliage
- Weeds including ivy, creepers & vines
- Other:

If there is a category of item which cannot be captured in the list above, please enter it into the Other Comments field.

If Food Organics (FO) will be collected, which items will be accepted in the collection service?

- Fruit & vegetable scraps
- Leftover food & takeaway scraps (cooked and uncooked)
- Eggshells
- Bread, cereals, pasta & grains
- Dairy
- Loose tea leaves & coffee grounds
- Meat & seafood
- Bones
- Seafood & nut shells
- Other:

If there is a category of item which cannot be captured in the list above, please enter it into the Other Comments field.

Will council be providing compostable liners? *

Yes No Unsure

If council is introducing kerbside FO collection, will compostable liners be accepted? *

Yes No

If applying for funding to implement GO bins and service, please describe council's future commitment or any considerations related to moving from GO to FOGO.

I can confirm Council intends to follow the funding acknowledgement requirements for organics bins as detailed in the Program Guidelines (see Appendix 2) *

Yes
 No

This number/amount is calculated.

Briefly summarise how the number of households for new at-home organics diversion equipment was calculated *

Word count:

Must be no more than 150 words.

Please attach supporting evidence for the calculations *

Attach a file:

e.g. Data and/or calculations of how the number was chosen, quote from supplier.

Proposed manufacturer

Recycled content of new at-home organics diversion equipment (%) *

Please note where possible, new at-home organics diversion equipment should be manufactured using a proportion of recycled content.

I can confirm Council intends to follow the funding acknowledgement requirements as detailed in the Program Guidelines (see Appendix 5) *

- Yes
- No

Comments (optional)

How does council intend to promote the use of this equipment by householders over an extended period?

How does council intend to manage this equipment if households choose to stop using it?

For example, take-back systems

Other comments

Upload any other relevant supporting documentation

Attach a file:

Stream 3

Stream 3 provides \$25 per household for bin harmonisation (i.e. replacement of dark green lids with red lids on general waste bins) to enable consistency with the Australian Standards – waste and recycling colour coding (AS4123.7-2024) and maximise the capture of each waste stream in the correct bin.

Please note that only Single Unit Dwellings (SUDs) are eligible for this program.

In this section, provide details of the **total number of households** that will receive bin harmonisation.

GROW FOGO Regional - Application Form

Form Preview

You will be asked for more information on incompatible bins in the next section.

Household Numbers and Projected Costs

Total number of households with compatible bins that will receive bin harmonisation *

Must be a number.

This number will be used to determine eligible funding.

Percentage of households in your LGA that will receive bin harmonisation

This number/amount is calculated.

Stream 3 Funding requested

\$

This number/amount is calculated.
\$25 per household.

Briefly summarise how the number of households for bin lid harmonisation was calculated / estimated. *

Word count:

Must be no more than 150 words.

Please attach supporting evidence for your calculations *

Attach a file:

e.g. Data and/or calculations of how the number was chosen, quote from supplier.

What is the estimated cost per household for council to achieve bin harmonisation through lid exchange? *

\$

Must be a dollar amount.

Unit cost, including supply, delivery and lid exchange.

Supplier Information

Proposed manufacturer / supplier (if known)

Do the new bin lids meet the requirements under AS4123.7/2024 standards? *

Yes

Recycled content of bin lids (%) *

Please note where possible bins, caddies and bin lids should be manufactured using a proportion of recycled content.

Please provide procurement details *

e.g. Timing considerations, selection criteria used to choose supplier.

Upload any other relevant supporting documentation

Attach a file:

I can confirm Council intends to follow the funding acknowledgement requirements for bin lids as detailed in the Program Guidelines (see Appendix 2) *

Yes

No

Comments (optional)

Where possible, bins and/or bin lids must be recovered for reprocessing (recycling or reuse). Please provide evidence from Council or their supplier(s) / contractor(s) demonstrating their intention below.

Attach a file:

This can be supplied at Milestone 1 instead (if preferred). Evidence suggested - email from supplier.

Comments (optional)

Optional: Application for Stream 3 Contingency Funding with this application

The maximum amount of contingency funding available at the application stage is **7.5%** of the **approved Stream 3 Funding**.

GROW FOGO Regional - Application Form

Form Preview

Contingency funding is available at the application stage **for costs related to incompatible bins**.

Applicants may opt to apply for Stream 3 Contingency Funding related to incompatible bins:

1. At the **application stage**, provided that the number of incompatible bins is known; **or**
2. Upon completion of **Milestone 2**.

Note that applications for Contingency Funding **for cost related to breakages** can only be made upon completion of Milestone 2.

In addition, **regional applicants** may be eligible to apply for Stream 3 contingency funding should the supply cost of bin lids **exceed \$25 per household**. Note that this can only be applied for upon completion of **Milestone 2**.

Acquittal of contingency funds will be based on actual expenditure incurred.

Please indicate your intent regarding contingency funding below

Note: Only contingency funding for incompatible bins is available at the time of application. Other available contingency funding can be applied for at Milestone 2.

Stream 3 Contingency Funding - Incompatible Bins

Of the total number of households requiring bin harmonisation (the number entered above), how many have bins that are incompatible with lid exchange? * *

Must be a number.

Provide evidence showing how the number of incompatible lids was calculated/estimated *

Attach a file:

Based on your responses above, the **maximum amount of contingency funding available** can be **estimated**.

The exact amount will be determined once the application has been assessed.

Maximum amount of contingency available

This number/amount is calculated.

Total amount of contingency funding sought by Council *

Must be a dollar amount.

This should not exceed the maximum amount available as shown above

What is the projected total cost of the supply, delivery and installation of complete bins to all the households with incompatible bins?

Must be a dollar amount.

GROW FOGO Regional - Application Form

Form Preview

Provide evidence of the calculation of this cost *

Attach a file:

Stream 4

Stream 4 provides \$10 per household to contribute towards council-specific education and awareness activities **related to the inclusion of organic materials in the council waste collection service, or to support the introduction of new at-home organics diversion equipment.**

Stream 4 funding (education and awareness) must support the introduction of a new, or expansion of an existing, organics kerbside collection service or new at-home organics diversion equipment. Funding is not available for ongoing education and/or behaviour change such as bin tagging, or operational costs. Please refer to the Program Guidelines for full details of eligibility.

Education and awareness activities must be developed in the context of changes to the council waste collection or at-home organics diversion equipment.

Messaging should guide householders to manage either the change from a 2-bin to a 3-bin service or new household equipment, including what can be disposed in each bin and how to go about it.

Funding may only be accessed once per household regardless of whether multiple other streams are accessed.

All proposed activities related to stream 4 funding should be included in Council's **Communication and Engagement Plan** (requested later in this form).

Where possible, the delivery of residential education materials must commence **at least 6 months** before service delivery (organic waste collection) commences.

Please ensure you are familiar with the Program Guidelines, including the funding acknowledgement requirements (Appendix 5).

Number of households that will receive education and awareness activities *

Must be a number.

Note: Only Single Unit Dwellings (SUDs) are eligible for this program.

Briefly summarise how the number households for education and behaviour change activities was calculated *

Word count:

Must be no more than 150 words.

Percentage of households in your LGA that will receive education and awareness activities

This number/amount is calculated.

Please attach supporting evidence for your calculations *

Attach a file:

e.g. data and/or calculations of how the number was chosen.

Funding requested

This number/amount is calculated.

Please provide any detail regarding the timeframes of delivery of education and awareness activities related to the new organics service *

Please see the funding requirements for stream 4 regarding initiating delivery of education materials

GROW FOGO Regional - Application Form

Form Preview

6 months prior to introduction of a new organics service

Other Comments

Please provide any additional details if required e.g. GO vs FOGO split or other specific arrangements

Total Program Funding

Total funding requested

\$

This number/amount is calculated.
This value is calculated based on funding required per stream.

Comments

Has Council previously received funding from the department for the activities listed in Streams 1 to 4? *

Yes No

If yes, please provide detail on previous funding received by council and specify which streams.

Note: If a response is not received, the department may request further information on previous funding to support your application.

Project Implementation and Business Case

* indicates a required field

Implementation Details

The following information relates to the Implementation Plan (or equivalent documents).

Please upload your implementation plan (or equivalent) *

Attach a file:

Implementation Details

The following information relates to the Implementation Plan (or equivalent documents), which must have council executive support.

GROW FOGO Regional - Application Form

Form Preview

Please upload your implementation plan (or equivalent) *

Attach a file:

Date the Implementation Plan received council executive support *

Must be a date.

Upload evidence of the council executive support here *

Attach a file:

Project schedule summary - include start and finish dates for each funding activity per stream (if you have a more detailed plan, please also update it below)

*

Please upload your project schedule file here (if available)

Attach a file:

Please consult the program guidelines for supporting documentation

Overall context and rationale for service changes. This includes community and environmental context *

Describe the environmental context community need/demand for this service. This could be qualitative information like “organic waste has increased as portion of total MSW, increasing rate of voluntary organic collection service, rising rate of community composting operations in area”, etc. Describe how the proposed changes support improved waste management and resource recovery.

Included locations *

This should include proposed suburbs for new service.

Rationale for excluded areas

Describe any opt-in or opt-out conditions for the organics service

GROW FOGO Regional - Application Form

Form Preview

Describe the process for applying for opting out / non-participation. Note: Not required for Stream 3 funding applications.

Describe how Council is maximising local content through greater participation of capable local industry for each stream of funding applied for *

This may include procuring local bin suppliers/collectors, local processors, collection supplies or manufacturing.

Business Case

The business case endorsed or approved by council of the proposed project must address the following items:

- 1.governance, risk and project management
- 2.commercial analysis including procurement and contractual considerations
- 3.material flows including expected capture rates and yields for all streams, considering changes over time
- 4.plan for processing of collected organics material
- 5.reasonable consideration of buy back arrangements, subject to quality requirements and other limitations
- 6.financial analysis that clearly demonstrates costs of status quo and organic collection service options, including consideration of levy rates, grant funding, impacts to user charges (total annual cost per household), cost per tonne recovered, and revenues/shortfalls through full cost pricing analysis.

Please attach the business case or equivalent documentation here *

Attach a file:

The attachment/s should include evidence to support the above fields.

Date business case (or equivalent documentation) was endorsed by council *

Must be a date.

Upload evidence of council endorsement here *

Attach a file:

Describe any changes to the residual waste bin (red lid) service as a result of the project *

E.g. bin size, collection frequency

GROW FOGO Regional - Application Form

Form Preview

Organics collection service provider(s) *

Provide tender information if the provider is not yet engaged.

Organics processing service provider(s) *

Provide tender information if the provider is not yet engaged.

Processor EA number (if known)

Processor facilities *

Please include location(s), and details of facility technology (e.g. open windrow)

Please provide evidence of processor(s) compliance and licensing, including consideration of waste volumes and capacity

Attach a file:

The program requires written confirmation from processor(s) that GO/FOGO material will be processed at a lawful facility. FO material must also be processed at a facility that can lawfully receive and process high odour risk feedstocks.

Anticipated annual quantity of GO collected (tonnes)

Must be a number.

Anticipated annual quantity of FOGO collected (tonnes)

Must be a number.

Outline projected changes in quantities over time

Where possible, councils should provide an economic analysis that considers cost/benefit assessment - job impacts, contribution to relevant targets, contribution to organic product markets, carbon emissions assessment and landfill diversion benefits. Please upload relevant documentation here if available

Attach a file:

GROW FOGO Regional - Application Form

Form Preview

What is the number of jobs expected to be created by the project?

This includes all the funding streams nominated by the council.

Activities funded under this application will commence within two years of execution of a funding agreement *

Yes

Communications and Engagement

* indicates a required field

Please ensure you have read the Program Guidelines carefully. A communications and engagement plan (plan) may be submitted at **Milestone 1** if not currently available or is awaiting council endorsement. Milestone 1 of the funding agreement (see Program Guidelines - Appendix 3) will require councils to submit further communication and engagement details, particularly around funding acknowledgement. This can be in the form of an updated plan or as additional attachments. It is suggested that all applicants share the Program Guidelines with their relevant council communications/marketing staff at the time of application.

- **Stream 1 & 2 funding:** the plan must deliver *region-specific messaging and resources to support community adoption of a new organics kerbside service or implementation of new at-home organics diversion equipment.*
- **Stream 3 funding:** the plan must support *community understanding of the proposed changes.*
- **Stream 4 funding:** All education and awareness activities must be detailed in this plan. These activities must be developed in the *context of changes to the council waste collection service or the introduction of new at-home organics diversion equipment. Messaging must guide householders to manage the change from a 2-bin to a 3-bin service, including what can be disposed in each bin and how to go about it; or to maximise use of the new at-home organics diversion equipment.*

For those councils applying for funding related to a new organics service *and* bin harmonisation, the communications and engagement plan may be submitted as separate or combined documents.

Do you wish to submit the communication and engagement plan as part of your application? *

Yes No

Please provide the communication and engagement plan for the proposed project funding streams with evidence of Council executive level endorsement or approval.

Please attach the plan here: *

Attach a file:

GROW FOGO Regional - Application Form

Form Preview

Date the plan received council executive support *

Must be a date.
